📄 Records management in Catalonia: preserving memory, ensuring access to information

In Catalonia, the General Subdirectorate of Archives and Document Management, under the General Directorate of Cultural Heritage of the Generalitat de Catalunya @patrimonigencat, is the central authority ensuring that archival standards are applied across all levels of Catalan administration.

🏛️ Did You Know? The Generalitat's Archives operate on multiple levels. The Archives of the Generalitat include:

- 📁 The National Archive of Catalonia, the heart of Catalonia's documentary heritage safeguards key historical records.
- 📁 Institutional Archives, home to records from the Parliament of Catalonia, the Ombudsman, and the Audit Office.
- 📁 Administrative Archives, which include documentation from government departments, territorial delegations, public enterprises, and affiliated entities.
- 📁 The Regional Archives Network, bringing document management closer to every corner of Catalonia.

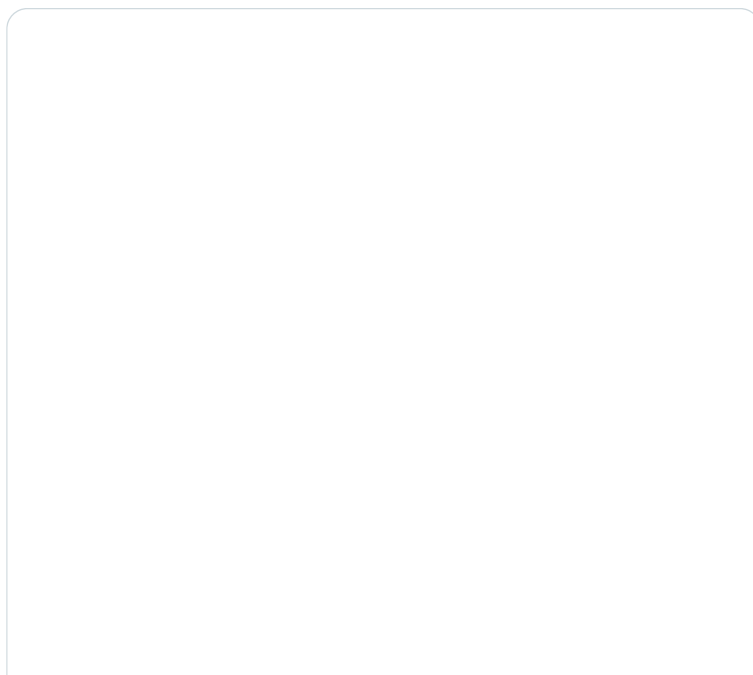

📄 Among the treasures of Catalan documentary heritage is the Acta de la Cort General de Catalunya of 1359, a landmark document from the General Court of Catalonia, held in Cervera on December 19, 1359. This extraordinary record, now designated a Cultural Asset of National Interest, is carefully preserved in the Regional Archive of La Segarra.

📍 Archives do more than store documents—they shape our identity and ensure transparency, knowledge, and access to information. Explore the Catalan archives network and discover how records management connects our past to the future!
